[table]font=footnotesize,sf,capposition=top

1 Introduction

PS:this is just a testing document

- this is a citation [1] for a paper using org-ref, another one [2]
- you also use the wonderful org-ref utility to manage your glossaries and acronyms, which is great :)
- this is an acronym for computer and LaTeX, you can see the raw document of the `main.org` to see the syntax used here.
- i use flyspell for spell checking

```python
import math
def Cap(x):
    return x.upper()
for i in range(4):
    print("line %d"%(i),end=' ')
print()
print(Cap("Hello"))
```

Code Snippet 1.1: A Code Block using Python

```
line 0 line 1 line 2 line 3
HELLO
```

1.1 Equation and tables

Table 1.1: testing table

name	another
Kebairia	Zakaria
523.6	Hello

- this is a reference for the code block **??**
- this is a reference for the table **??**

Glossary

computer   A machine

LaTeX   A document preparation system
